

MOHAMMAD IBRAHIM DAR

Full-Stack Developer | MERN | Java | Computer Vision

daribrahim643@gmail.com | +91-7006426430 | Bengaluru, Karnataka | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full-stack developer with hands-on industry experience across the MERN stack, RESTful API design, and secure authentication (JWT, RBAC), currently building production Next.js dashboards and real-time computer vision systems (YOLOv8) at Nexilis AI. Comfortable working end-to-end — from responsive React/Next.js frontends to Node.js/Express backends, MySQL/MongoDB data layers, and Docker/GitHub Actions CI-CD pipelines — with working exposure to C/C++ low-level programming. Strong grounding in OOP, DSA, SDLC, and Agile practices, with a fast-learner mindset and genuine interest in owning real-world, production-grade applications.

EXPERIENCE

Fullstack Developer

Jun 2026 – Aug 2026

Nexilis AI

- Develop Next.js-based UI dashboards for internal and client-facing platforms, focusing on performance, reusable component architecture, and responsive design.
- Build and integrate RESTful API-driven inference pipelines for real-time object detection using computer vision models (YOLOv8) into production applications.
- Write low-level C/C++ code for performance-critical modules supporting real-time detection workflows.
- Build and maintain CI/CD pipelines (GitHub Actions, Docker, Render) to automate testing, builds, and deployments, improving release reliability and delivery speed.

Java Full Stack Intern

Jan 2026 – Jun 2026

QSpiders Training Institute — Rajajinagar, Bengaluru

- Completed intensive hands-on training in Core Java, OOP principles, Data Structures & Algorithms, SDLC, and Agile development practices.
- Developed real-time projects using the MERN stack, RESTful APIs, and relational databases (Oracle SQL, MySQL), gaining practical end-to-end software development experience.

PROJECTS

Phyzifit — Online Consulting Platform

Jan 2026

- Built a full-stack consulting platform connecting users with health and fitness professionals for virtual consultations and personalized wellness plans.
- Implemented secure JWT-based authentication, role-based access control (RBAC), real-time appointment scheduling, and RESTful APIs for users, consultants, and admins.
- Built a responsive React.js frontend with Redux Toolkit for state management and a Node.js/Express.js backend integrated with MongoDB for data persistence.

BlogHub — Journal & Diary Application

Aug 2025

Core Java | React.js | MySQL | REST API

- Built a full-stack journaling application with a Core Java backend and React.js frontend; implemented JWT authentication, RESTful API endpoints, and clean exception handling.

TECHNICAL SKILLS

Languages: Core Java, C, C++, JavaScript (ES6+), Python

Frontend: React.js, Next.js, Redux Toolkit, HTML5, CSS3, Bootstrap, EJS

Backend & APIs: Node.js, Express.js, REST API Design, JWT Authentication, RBAC, MVC Architecture

Databases: MySQL, Oracle SQL, MongoDB Atlas, NoSQL, JDBC

DevOps & Cloud: Docker, GitHub Actions, CI/CD Pipelines, Render, Git

Computer Vision: YOLOv8, OpenCV, Real-Time Object Detection, Model Inference Integration

Tools: Git, GitHub, Postman, VS Code, Eclipse, npm, Maven, MongoDB Compass

Concepts: OOP, SDLC, Agile, Low-Level Programming, DSA (Arrays, Linked Lists, Trees, Sorting & Searching)

EDUCATION

B.Tech — Computer Science Engineering

Jul 2022 – Jul 2026

Arni University, Himachal Pradesh — CGPA: 8.5 / 10.0 | No Active Backlogs

Higher Secondary (XII)

2021

GHSS Gund Hassi Bhat (JKBOSE), Srinagar, J&K — Percentage: 84%

CERTIFICATIONS & ACHIEVEMENTS

- HackerRank 30 Days of Code Challenge — 30 consecutive DSA coding challenges in Core Java, demonstrating strong problem-solving and logical reasoning skills.
- Full Stack Web Development (MERN), Udemy — 6-month certified course (2025): Node.js, React.js, Redux, JWT Authentication, MongoDB, REST APIs.
